

Important note about « Taxes »

Our site basically displays prices “exclusive of Taxes” for both WINES and TRANSPORT FEES.

However, your basket will feature a “TVA” amount still. It is calculated on the value of the WINE + TRANSPORT FEE.

This is basically calculated as follows:

- ➔ *French VAT by 20% for a delivery anywhere inside the E.U.*
- ➔ For export outside the E.U., this “TVA” line will feature:
 - the Insurance on the wines during freight (4,5% to the USA or 3,5% in the rest of the world)
 - the eventual local TAX to be applied on the value of the wines entering your country.

In the USA, for example, since October 2019, an Administration Tax of 25% is claimed by the US Customs on French wines below 14% alcohol (all of our wines!)

On top of which some states will other taxes (New Hampshire: 8% tax and Alabama: 4 USD per case)
